WE INVEST IN STOCK.

At the heart of every great soup is a great stock.

We start by gently simmering vegetables, herbs, meats, and bones. No shortcuts. No lab-made flavors, starches, gums, or fillers. No excess salt or sugar.

Just pure, honest ingredients that slowly transform into a rich, umami-packed base, that elevates our soups.

WE DON'T HAVE FREEZERS.

Freshness is our commitment. Our soups taste homemade because they are. We craft every batch daily in our kitchens, using fresh ingredients.

From the moment our soups are prepared, they're delivered to you with care and never frozen, never compromised.

Because we believe the best soups are the ones made to be enjoyed right away.

“At Hale and Hearty Soups, we believe soup makes everything better. That’s why we make our soups 100% from scratch in our Brooklyn kitchen, with homemade stock and locally sourced ingredients. We believe in making soup that’s not only delicious, but creates a moment of comfort in the day — it’s to be savored.”
